Aspiring Software Engineer — Full Stack Developer — AI & Cloud Enthusiast — English, Hindi, French (B1)

Results-driven **Computer Science Engineering student** with a strong foundation in **software development, distributed systems, and AI-driven solutions**. Skilled in designing and deploying **scalable, fault-tolerant applications** using technologies such as **React, Node.js, Flask, and MongoDB**. Demonstrated ability to apply **data structures, algorithms, and CI/CD practices** to build robust systems. Eager to contribute to an innovative, technology-driven organization by developing high-performance software that enhances user experience and operational efficiency.

Education

G. H. Patel College of Engineering & Technology, Anand <i>B.Tech in Computer Science Engineering (IoT)</i>	CGPA: 9.45/10 2022–2026
Podar International School, Ahmedabad <i>Class 12 (CBSE)</i>	91.2%, School Topper 2022
Podar International School, Ahmedabad <i>Class 10 (CBSE)</i>	94.6%, School Topper 2020

Experience

Ural Federal University <i>Summer Intern</i>	Russia July–August 2025
- Developed an interactive web platform to analyze the economic impact of nuclear isotope applications across medicine, agriculture, and industry, using React, Flask, and REST APIs. - Optimized data pipelines and backend queries, improving data retrieval efficiency by 30% and reducing response latency. - Collaborated with a cross-functional team to visualize datasets, enabling better decision-making through intuitive data dashboards.	
ShadowFox <i>Cybersecurity Analyst Intern</i>	Remote Oct–Nov 2024
- Performed in-depth security audits and penetration tests using Wireshark, Nmap, and Burp Suite to detect vulnerabilities in network infrastructure. - Deployed a simulated attack–defense environment with Metasploit that improved the threat detection playbook by 20%. - Documented detailed remediation reports and proposed system-level security enhancements that reduced critical vulnerabilities.	

Projects

Learnova – AI Learning Platform <i>React, Flask, OpenAI API, MongoDB, PostgreSQL, Top 50/1200+ at Odoo Hackathon, SVNIT</i>	March 2025
- Led a 4-member team to build an AI-powered EdTech platform with 40% improved learning efficiency using adaptive testing. - Integrated OpenAI API for real-time content generation and OpenCV + JS for anti-cheating (eye-tracking, tab detection). - Achieved 30% faster load times using Redis caching and optimized database operations with PostgreSQL.	
Phishing Website Detection <i>Python, Scikit-Learn, Flask, Pandas, Tailwind CSS, 90% Accuracy</i>	April 2025
- Built a phishing detection ML model with 90% accuracy using 500+ URLs and Scikit-Learn classifiers. - Boosted performance by 20% with efficient data preprocessing using Pandas and NumPy. - Deployed with Flask and styled a responsive UI using Tailwind CSS.	
Study Notion – EdTech Platform <i>MERN Stack, Redux, Razorpay, Cloudinary, 99% Payment Success</i>	November 2024
- Building a full-stack EdTech platform for 50+ courses with 95% secure authentication and cloud-hosted media (Cloudinary). - Integrated Razorpay for secure payments with 99% transaction success rate. - Improved frontend responsiveness and API efficiency, reducing load times by 30%.	

Certifications

- 📄 **Data Structures and Algorithms in Python** — IIT Madras (NPTEL, Top 5%, Elite + Silver)
- 📄 **Ethical Hacking** — IIT Kharagpur (Hands-on penetration testing and network security)
- 📄 **Cybersecurity Specialization** — Google (Threat modeling, system hardening, and risk mitigation)
- 📄 **Full Stack Web Development Bootcamp** — CodeHelp (MERN Stack, REST APIs, and Cloud Deployment)
- 📄 **IEEE CodeFest Winner (1st Place)** — Recognized for building an AI-powered learning solution using Flask and OpenAI APIs

Skills

Programming: Python, JavaScript, Java, C++, C, SQL
Web & Cloud: React.js, Node.js, Express.js, REST APIs, MongoDB, Docker, AWS, Azure (Data Factory, Databricks, Data Lake)
AI/ML & Data: Pandas, NumPy, Scikit-learn, TensorFlow, Power BI (Basic)
DevOps & Tools: Git, GitHub, Jenkins, CI/CD Pipelines, Linux
Soft Skills: Teamwork, Adaptability, Communication, Problem-Solving, Quick Learner
